🏠 COIMBATORE

ABOUT US

I am a versatile professional with 3 years and 8 months of experience in web development. A key factor in my success is my openness to learning and adapting to new technologies, never limiting myself to a specific tool or framework. This approach has allowed me to embrace and master emerging technologies in the field continuously.

PROFESSIONAL PROJECT

Client : Smile3denterprises   4/24

Role : Web Developer

Technology : HTML, CSS, Javascript, Bootstrap, FancyBox

Description : Developed a custom website for Smile3denterprises using HTML, CSS, Bootstrap, and JavaScript for their gift product business. Integrated jQuery FancyBox for interactive image galleries and AOS animations for dynamic scrolling effects. The site features a responsive, user-friendly design with high-quality product images to create an engaging online shopping experience across all devices.

Client : Signature Interiors   3/24

Role : Web Developer

Technology : HTML, CSS, PHP, Bootstrap

Description : Designed and developed a custom website for RareTex Fashions, utilizing HTML, CSS, Bootstrap, and JavaScript for a responsive layout. Incorporated jQuery FancyBox for stylish image galleries, AOS for smooth scrolling animations, and optimized the site with high-quality product images to enhance the visual experience and user engagement.

Client : Rare Tex Fashion   9/23

Role : Web Developer

Technology : HTML, CSS, Javascript, Bootstrap

Description : Developed a fully static website for Signature Interiors using HTML, CSS, Bootstrap, JavaScript, and jQuery. The website features a responsive design, interactive image galleries, and smooth scrolling effects to showcase interior design projects. Optimized for mobile devices, the site provides an engaging user experience with high-quality visuals and intuitive navigation.

Client : Gowri Plates   5/23

Role : Web Developer

Technology : HTML, CSS, PHP, Javascript, Bootstrap

Description : Gowri Plates makes food-safe plastic buffet plates in Coimbatore. We offer sizes: 11-inch, 12-inch, 13-inch, and 13-inch heavy. Our plates come in vibrant colors, perfect for wholesale orders. The website uses HTML, CSS, JavaScript, and PHP. It's mobile-friendly and includes WOW animations for a dynamic experience.

Client : PMG School   9/22

Role : Web Developer

Technology : HTML, CSS, PHP (CodeIgniter) Javascript, Bootstrap

Description: The PMG School website is built as a dynamic platform using HTML, CSS, JavaScript, and PHP with the CodeIgniter framework. It is powered by a Content Management System (CMS), which makes it easy to manage and update content dynamically. This CMS allows the website to be user-friendly, offering administrators an intuitive interface for managing pages, news, events, and more.

Client : Dr Mm Yusuf   12/21

Role : Web Developer

Technology : HTML, CSS, PHP (CodeIgniter), Javascript

Description: The Dr. MM Yusuf website is a dynamic platform constructed with HTML, CSS, JavaScript, and PHP, leveraging the CodeIgniter framework. It operates on a Content Management System (CMS), enabling easy and flexible content updates. This CMS design ensures a user-friendly experience for administrators, providing an intuitive interface for managing pages, news, events, and other site features.
