PROFESSIONAL SUMMARY

Creative and performance-driven Front-End Web Developer with 4.7+ years of experience designing and developing over 80+ responsive and user-centric websites and web applications. Expertise in ReactJS, JavaScript, Tailwind CSS, Material UI, PHP, and UI/UX implementation. Skilled in translating Figma mockups into cross-browser-compatible, mobile-first, and SEO-optimized interfaces. Passionate about delivering high-performance user experiences through clean and scalable code.

TECHNICAL SKILLS

Front-End: ReactJS, JavaScript, Tailwind CSS, Bootstrap, Material UI, SCSS, HTML5, CSS3, jQuery

Back-End: PHP, Laravel, CodeIgniter, MySQL

Frameworks/Libraries: ReactJS, GSAP, AOS, ScrollTrigger, Swiper.js

Tools: Git, GitHub, Figma, Adobe Photoshop, Visual Studio Code, Chrome DevTools

Best Practices: Responsive Design, Cross-Browser Compatibility, Performance Optimization, SEO, Accessibility (WCAG), CI/CD

Other: CMS Development, Agile/Scrum Workflow, Cross-Browser Testing

---

PROFESSIONAL EXPERIENCE

Front-End Web Developer - Starnine Solutions   Sep 2024 – Present

- Designed and deployed multiple responsive web applications using ReactJS, Tailwind CSS, and JavaScript.
- Integrated advanced animations using GSAP, AOS, WOW.js, and ScrollTrigger.
- Developed and maintained custom CMS solutions with PHP, CodeIgniter, and MySQL
- Focused on web performance, accessibility and cross-browser compatibility across Chrome, Firefox, and Safari.

Junior Web Developer – Blazon Technology   May 2023 – Jun 2024

- Translated Figma designs into pixel-perfect, mobile-responsive web pages using Bootstrap, HTML, CSS, and JavaScript.
- Enhanced website performance by optimizing media assets and minifying resources for faster load times.
- Participated in sprint planning and collaborated with the team to ensure timely project delivery and meet client expectations.

Web Developer – The Banyan Infotech   **Sep 2021 – Feb 2023**

- Developed dynamic websites using ReactJS and CodeIgniter, enhancing backend data handling and scalability.
- Implemented responsive UI components that improved user engagement and reduced bounce rates.
- Performed routine performance audits and cross-browser testing, ensuring a consistent UX across platforms.

Web Developer – Zavien Solution   **May 2020 – Jul 2021**

- Built and maintained web applications using Laravel, JavaScript, and CSS3.
- Created fully responsive layouts and implemented front-end logic to streamline user workflows.
- Ensured mobile responsiveness across all major devices using fluid grid systems, while performing cross-browser testing and performance optimization.

PROJECT HIGHLIGHTS

- **Agasthiya Maha Siva Nadi Jothidam** - Dynamic astrology website with using CodeIgniter CMS.
- **NANOEX** – Interactive ReactJS SPA using Material UI, AOS, and ScrollTrigger.
- **Starninesolutions –** Corporate website with particles.min.js, Swiper.js, and Bootstrap UI.
- **Scrapcab –** Waste vendor-user platform with a dynamic PHP backend and intuitive front-end.
- **Smile3denterprises –** E-commerce-style website with image galleries and smooth scroll animations.
- **Signature Interiors –** Designer portfolio with responsive image sliders and gallery sections.
- **RareTex Fashions –** Scrollable fashion showcase with real-time product updates.
- **Gowri Plates –** Online product catalog for buffer plates featuring WOW.js animations and a mobile-optimized, user-friendly layout.
- **PMG School –** School CMS with admin dashboard for managing dynamic content.
- **Dr. MM Yusuf –** Medical professional website with a secure, editable admin panel.
