PROFESSIONAL SUMMARY

Creative and detail-focused WordPress Developer & UI/UX Specialist with 5.8+ years of experience building responsive, accessible, and scalable web solutions. Proficient in React.js, JavaScript, Tailwind CSS, WordPress and PHP-based CMS platforms. Skilled at converting Figma designs into intuitive user interfaces while writing clean, maintainable code. Strong advocate for performance optimization, WCAG 2.1 accessibility standards, and cross browser compatibility.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, React.js, PHP, WordPress, HTML5, CSS3, SCSS, Laravel, CodeIgniter, MySQL

Styling & UI Libraries: Tailwind CSS, Bootstrap, Material UI, jQuery, GSAP, AOS, ScrollTrigger, Swiper.js, WOW.js, Particles.js

Tools & Workflow: Git, GitHub, Visual Studio Code, Figma, Adobe Photoshop, Chrome DevTools

Practices & Methodologies: Responsive Design, Web Accessibility (WCAG), SEO Optimization, Cross-Browser Testing, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Front-End Web Developer - Starnine Solutions

Sep 2024 – Present

- Built responsive single-page applications using React and Tailwind CSS, reducing development time by 20%.
- Enhanced user interaction by 30% through GSAP and ScrollTrigger-powered animations.
- Implemented dynamic CMS modules with PHP and CodeIgniter, minimizing manual updates by 40%.
- Maintained consistent performance across major browsers and ensured WCAG 2.1 compliance.
- Supported Agile workflows, contributing to sprint planning and code reviews, improving team output by 15%.

Junior Web Developer – Blazon Technology

May 2023 – Jun 2024

- Converted 25+ Figma designs into fully responsive layouts using HTML, CSS, JavaScript, and Bootstrap.
- Improved loading speeds by up to 3 seconds through asset optimization, increasing user retention by 12%.
- Collaborated effectively with UI/UX designers and backend developers to meet project deadlines.
- Conducted extensive QA across 20+ devices and browsers to ensure visual and functional consistency.

Web Developer – The Banyan Infotech

Sep 2021 – Feb 2023

- Built modular React components and integrated them into CodeIgniter systems, enhancing reusability by 35%.
- Improved performance with lazy loading and asset optimization, reducing load times by 40%.
- Conducted audits to boost mobile usability and raised Lighthouse scores by 20%.
- Contributed to over 8 project deployments in collaboration with cross-functional teams.

- Delivered 10+ responsive web applications using Laravel, JavaScript, and modern CSS methodologies.
 - Implemented mobile-first and SEO strategies, leading to a 25% increase in organic traffic.
 - Refined site structure and navigation, resulting in a 15% decrease in bounce rate.
-

PROJECT HIGHLIGHTS

- **HomeLoansCanada (Mortgage & Loan Services Website)**

WordPress, PHP, HTML5, CSS3, JavaScript

Built a responsive financial services platform focused on mortgage and loan solutions.

Improved user engagement through intuitive UI and optimized lead generation flow.

- **Agasthiya Maha Siva Nadi Jothidam**

CodeIgniter, PHP, JavaScript, MySQL

Created a CMS-driven astrology platform with a secure admin panel.

Enabled non-technical users to manage 100+ monthly content updates efficiently.

- **NANOEX**

React, Material UI, AOS, ScrollTrigger

Designed an interactive single-page application with smooth animations.

Increased user session duration by 28%.

- **ScrapCab**

PHP, jQuery, Bootstrap

Developed a vendor-user platform with real-time listings and custom dashboards.

Onboarded 500+ vendors within 3 months .

- **Smile3D Enterprises**

Built an e-commerce-style platform with responsive galleries and interactive elements.

Boosted conversions by 22% through improved UI and performance.

- **PMG School CMS**

Delivered a dynamic school management portal with admin controls.

Simplified content updates, reducing dependency on developers.
